

# TPL AUXIN PLUS ++

**TPL Auxin Plus ++ is a blend of root hormone stimulants and vitamins for use in turf, sugarcane and propagation situations.**

**TPL Auxin Plus++ is a root growth formula used to increase early root initiation in treated plants. The two auxin types (IAA/ NAA) present in TPL Auxin Plus++ promotes the development of new root tips first, then followed by early leaf formation.**

**Vitamin B1 is naturally produced in plant leaves and transported to roots where it stimulates root growth and development.**

**TPL Auxin Plus++ also contains a high concentration of Vitamin B1.**

## Application

TPL Auxin Plus++ when used in conjunction with a good nutrition program is ideal for use in all turf establishment situations for enhancing root development, particularly where turf has been planted from scarification material.

As a maintenance bio-stimulant product, TPL Auxin Plus++ has a great fit, as it is very tank mix flexible and can be included with most Agchem or fertiliser products. The key when using the product is to continue to apply applications on a monthly basis.

### Guaranteed Minimum Analysis (w/v)

0.075 g/L Napthalene Acetic Acid
0.075 g/L Indole Acetic Acid
2.25 g/L Vitamin B1 Thiamine

### Pack sizes

20L, 200L, 1000L

### Product Characteristics

<b>Colour</b>	Deep Green
<b>S.G.</b>	0.98 - 1.02
<b>pH</b>	4.6-5.0

Situation	Rate per 100m <sup>2</sup>	Rate per Ha	Water Volume	Comments
