

# TPL BOLSTER 0-0-8

**TPL Bolster 0-0-8, the premium liquid fertiliser for a hard-wearing and healthy turf. Our special blend of potassium and silicon promotes strong, upright growth and boosts resistance against pathogens.**

**TPL Bolster enhances the accumulation of silicon in the epidermal cells and cell walls, resulting in more upright leaf blades and a thicker, stronger cuticle layer that reduces water loss and non-stomatic transpiration. By strengthening the cuticle layer before drought onset, TPL Bolster slows transpiration and may reduce fungal attacks by increasing cell wall thickness.**

**Additionally, TPL Bolster stimulates the plant's natural defense mechanisms against pathogens. Apply TPL Bolster to all types of grass before the onset of stress conditions for optimal results.**

## Application

Apply as a spray application to turf any time when potassium is required. Dilute with water, using the application rate that delivers the desired level of nutrients. Use during autumn to condition turf prior to winter. Application rates can be adjusted to suit individual situations. Avoid mowing for 24 hours following an application.

## Compatibility

This product may be mixed with most fertilisers, fungicides, insecticides & inoculants. Ensure all product labels are read carefully. Always check compatibility prior to mixing.

### Guaranteed Minimum Analysis (w/v)

Total Potassium (K) as Potassium Silicate	8.3%
Total Silica (Si) as Potassium Silicate	20%

### Pack sizes

20L, 200L, 1000L

### Product Characteristics

<b>Colour</b>	Reddish Brown
<b>S.G.</b>	1.28-1.32
<b>pH</b>	11.8-12.2

Situation	Rate per 100m <sup>2</sup>	Rate per Ha	Water Volume	Comments
Amenity & Sports Turf including Racetracks	-	2-5L	Min of 5L/100m <sup>2</sup> (500L/ha)	Applications can be made year round. Use the high rate when potassium deficiencies have been identified
Sportsfields & Racetracks	30-50mL	3-5L	-	Use when stress is anticipated
Landscape and Ornamentals	25-50mL		10L	Apply as foliar spray to correct nutrient deficiencies
Establishing Turf, seeds, sod, stolons	Minimum of 500L per ha
