

TPL HI-K +AA 10-0-20 + Fe

TPL Hi-K +AA is a high Potassium liquid fertiliser for immediate and sustained plant growth.

TPL Hi-K +AA is a low burn formulation made with premium ingredients containing 10% Nitrogen, 60% of which is slow release Urea technology and 20% Potassium Carbonate. Combined with an Amino Acid package for additional plant health response and 0.5% chelated Iron for enhanced green up, this product provides a solid base on which to build a sustainable soil nutrition program providing maximum benefits.

Application

Apply TPL Hi-K + AA as a foliar spray application during the growing season on all turf grasses and ornamental plants. Dilute with water at no less than 1:3 using the desired nitrogen rate per 100m² according to the application rate chart. Apply in sufficient water to achieve adequate plant coverage. Use a water volume of 5-15L per 100m² or 500 - 1500L per hectare, depending on the application rate.

Avoid mowing for 24 hours following an application.

Compatibility

This product may be mixed with most fertilisers, fungicides, insecticides and innoculants. Ensure all product labels are read carefully. Always check compatibility prior to mixing.

Typical Analysis (w/w)

Total Nitrogen (N)	10%
as Urea	4%
as Slow Release Urea	6%
Potassium (K)	20%
as potassium carbonate	
Iron (Fe) as EDTA Chelate	0.04%
Amino Acids	0.5%

Pack sizes

20L, 200L, 1000L

Product Characteristics

Colour	Dark Reddish Brown
S.G.	1.30-1.34
pH	11.8-12.4

Situation	Rate per 100m ²	Rate per Ha	Water Volume	Comments
General Turf Maintenance	400mL-1L	40-100L	5L/100m ² (500L/ha)	Apply as foliar spray throughout the year, using the higher rate during times when plant resilience and hardness is desired. For best results apply at 2-4 week intervals.
Bowling Greens	6-16L	-	Minimum of 150L	-
Landscape and Ornamentals	60-160mL	-	10L	Apply as a foliar spray or soil drench throughout the growing season.
