

TPW RAPIDPRO

TPW RapidPro is a blended non-ionic soil wetting agent.

TPW RapidPro improves penetration and infiltration of water through soil profiles.

Designed, formulated and packed in Australia with Australian conditions in mind.

Application

RapidPro is a blended nonionic soil penetrant that improves the penetration and infiltration of applied irrigation water. RapidPro may be applied through conventional sprayers or by irrigation systems.

RapidPro can be applied to all fine turf species. Application is monthly or as required.

Mixing

RapidPro mixes easily with water. Half fill spray tank, add RapidPro and top up with hose under water level.

Active Ingredients

Alkoxyhlated Polyols	10%
Glucoethers and Polyethers	7%
Carrier Solution	83%

Pack sizes

20L, 200L, 1000L
