

Professional turf products also available to the home lawn enthusiast:

Acelepryn Lawn Grub Control

Available in liquid and granular forms. For the control of turf pests including Lawn Army Worm and Lawn Curl Grubs. Suitable for all lawn varieties.

Cutlass M Herbicide

Broad spectrum broadleaf weed killer containing MCPA and Dicamba, can be used on a large number of established turf varieties.

Posterity Fungicide

For the control of Dollar Spot, Winter Fusarium and Spring Dead Spot. Posterity is a powerful preventative and curative fungicide treatment in turf.

Primo Maxx Growth Regulator

Designed to regulate turf growth and to promote greener, denser turf with less clippings, therefore less expensive maintenance.

Bow & Arrow Herbicide

A combination of MCPA, Clopyralid and Diflufenican for the control of certain broadleaf weeds in turf.

Barricade Herbicide

For the pre-emergent control of weeds in established turf, garden beds and pots. Controls a wide range of grassy weeds.

Home Lawn Guide

At Turfcare Australia, we understand that maintaining vibrant and healthy turf requires a combination of expertise, dedication and the right fertilisers. That's why we're proud to present our range of premium products – a lineup designed to meet all your turf care needs with unparalleled reliability.

TPL UltiKelp + AA - Root Growth Stimulant

Turfcare's TPL UltiKelp + AA contains a powerful concentration of kelp for the promotion of root and shoot development. This highly concentrated liquid kelp contains 35% w/v kelp which provides a combination of auxins, cytokinins, gibberellic acid and alginic acid to stimulate root and shoot growth. Naturally contains phosphorus and potassium to effectively supplement plant nutrition levels. UltiKelp + AA is suitable for soil and or foliar application.

Analysis: 100% Kelp Extract

Rate: 120mL per 100m²

Pack Size: 1L

TPL Standout - Green-Up Turf Enhancer

Turfcare's TPL Standout combines the effects of iron and manganese with nitrogen to produce turf with a dark, emerald green colour perfect for presenting a turf area that stands out. Iron and manganese are complexed with citrates to enhance foliar uptake and avoid nutrient tie-ups in the soil.

Analysis: 15% Nitrogen (N)
6% Iron (Fe)
2% Manganese (Mn)

Rate: 200-400 mL per 100m²

Pack Size: 1L

TPW AquaPro - Wetting Agent

Turfcare's TPW AquaPro is an all purpose wetting agent with added kelp extract. TPW AquaPro is the ideal year round wetting agent option for general turf and ornamental use. TPW AquaPro contains 45% blended surfactants, including a strong surface tension agent for rapid soil and mulch penetration with 5% added kelp extract to help stimulate plant root growth.

Analysis: 45% Surfactants
5% Kelp Extract

Rate: 200mL per 100m²

Pack Size: 1L

TPL Essence - Turf Maintenance

Turfcare's TPL Essence is a balanced, high N:K ratio liquid nutritional supplement with added trace elements suited for use on all turf surfaces as a maintenance fertiliser and to aid recovery. TPL Essence provides all the essential plant nutrients for healthy turf growth in all seasons and a wide range of soil pH in a convenient and easy to use form.

Analysis: 14% Nitrogen (N)
3% Phosphorus (P)
5% Potassium (K)

Rate: 200mL-1L per 100m²

Pack Size: 1L

TPG Enhance - Granular Lawn Fertiliser

Turfcare's TPG Enhance granular lawn fertiliser provides excellent colour and a high level of turf growth due to its 40% stabilised nitrogen with added iron and manganese. This product applied at routine intervals, will provide an exceptional deep colour with excellent growth.

Analysis: 25% Nitrogen (N)
2% Phosphorus (P)
11% Potassium (K)

Rate: 2.5kg per 100m²

Pack Size: 4kg
