Oxy-Rush™

soil stimulant

THE NEXT GENERATION

**What is
Oxy-Rush?**

**THE NEXT
GENERATION**

2

- ✓ Oxy-Rush The Next Generation is a 3 in 1 combination, created to save you money and time and improve the efficiency of your soils.
- ✓ It has been specifically formulated with the following materials; Oxy-Rush™, Humic Acid, Seaweed-Biostimulants which produces a complete soil conditioner and root protection.

- ✓ Increases root mass, seed establishment and nutrient availability.
- ✓ Increases Oxygen levels in rootzones, improving the efficiency of the growing medium.
- ✓ Reduces thatch and black layer.
- ✓ Improves disease resistance.
- ✓ Compatible and tank mixable with wetting agents, liquid fertilisers.
- ✓ Complements aeration practices and regularly replaces hollow coring.
