

# TPL ZENITH 0-0-1

**TPL Zenith** is the ultimate solution for improving soil health and promoting healthy growth of turf.

TPL Zenith increases CEC levels in all soil types, which aids in accelerating nutrient availability, uptake, and retention, promoting healthy growth and development.

Our formula also aids in reducing 'black layer' in turf which can cause significant damage to plant health. Our product is designed to increase root depth and density of the root mass throughout the soil profile, leading to healthier and stronger plants.

TPL Zenith also enhances plant health and may improve disease resistance.

## Application

Apply Zenith as part of a balanced soil nutrition program throughout the year. Apply in a minimum of 200L water per hectare and follow with 4-6mm irrigation. Do not apply when temperatures exceed 30°C.

## Compatibility

This product may be mixed with most fertilisers, fungicides, insecticides & inoculants. Ensure all product labels are read carefully. Always check compatibility prior to mixing.

### Guaranteed Minimum Analysis (w/v)

Total Potassium (K)	1.5%
Total Sulfur (S)	1.0%
Total Carbon (C)	2.5%
Biostimulants as Metabolites	10.0%
Biostimulants as Humate	5.5%
Biostimulants as Fulvate	2.5%

### Pack sizes

20L, 200L, 1000L

### Product Characteristics

<b>Colour</b>	Dark Brown
