

# TPL COMBO 11-0-0

**TPL Combo 11-0-0, is the ultimate soil health solution! Our formula contains highly soluble forms of calcium and magnesium, which quickly and effectively reduce sodium levels in your soil.**

**Our chloride and sulphate-free formulation has an ideal ratio of calcium to magnesium (4:1), making it perfect for routine maintenance applications. Plus, it can be easily injected into fertigation systems, with flexible application rates to modify the nitrogen output.**

**TPL Combo's free-flowing formulation makes it effortless to decant into spray equipment and mixing tanks, saving you time and hassle. Our product is also infused with boron, which aids in maximizing calcium uptake within the plant, promoting healthy growth and development.**

**Designed and manufactured in Australia, TPL Combo is the solution you need to improve soil health and promote optimal plant growth.**

## Application

As a soil drench, TPL Combo helps flush out excess sodium, while as a foliar application, it helps address sodium-related issues within the plant. To apply, simply spray TPL Combo on all types of turf grasses with sufficient water for optimal coverage. For best results, avoid application when the temperature exceeds 26°C and do not mow for 24 hours afterward. Always follow up with immediate irrigation to ensure good soil penetration. If the soil is dry or the turf plant is under heat or drought stress, it is recommended to irrigate before and after application to achieve the best possible outcome. Keep your turf and plants looking their best with TPL Combo.

## Compatibility

This product may be mixed with most fertilisers, fungicides, insecticides & inoculants. Ensure all product labels are read carefully. Always check compatibility prior to mixing.

### Guaranteed Minimum Analysis (w/v)

|                                 |       |
|---------------------------------|-------|
| Total Nitrogen (N) as Nitrate   | 11.2% |
| Total Calcium (Ca) as Nitrate   | 13%   |
| Total Manganese (Mg) as Nitrate | 3.4%  |
| Total Boron (B) as Borate       | 0.1%  |

### Pack sizes

20L, 200L, 1000L

### Product Characteristics

|               |          |
|---------------|----------|
| <b>Colour</b> | Clear    |
| <b>S.G.</b>   | 1.46-1.5 |
| <b>pH</b>     | 4-6      |

| Situation                 | Rate per 100m <sup>2</sup> | Rate per Ha | Water Volume                           | Comments   |
|---------------------------|----------------------------|-------------|--|--|
| Soil Application          | 200-400mL                  | 20-40L      | 5-15L/100m <sup>2</sup> (500-1500L/ha) | Apply in a minimum of 500L of water per hectare and irrigate following application with 3-6mm of irrigation. Repeat every 14-30 days during the active growing season. |
| Foliar Application        | 100-200mL                  | 10-20L      | Minimum of 150L                        | Apply in a minimum of 500L of water per hectare. Repeat every 14-30 days during the active growing season.   |
| Landscape and Ornamentals | 150mL                      |             | 10L                                    | Repeat the application every 30 days or as required.   |
