

# TPL STRENGTH PK 0-22-32

**TPL Strength PK+ 0-22-32, is a highly concentrated phosphorus and potassium liquid fertiliser. This product contains mono-potassium and di-potassium phosphite salts.**

**TPL Strength PK+ fertiliser can be applied to the foliage or root zone, and it will correct P + K deficiencies within the turfgrass, whilst also improving the health, growth, vigour, and STRENGTH. With the additional vitamins and amino acids TPL Strength PK+ will provide a great environment for root development within the soil profile.**

## Application

Apply as a spray application to turf any time when potassium is required. Dilute with water, using the application rate that delivers the desired level of nutrients. Use during autumn to condition turf prior to winter. Application rates can be adjusted to suit individual situations. Avoid mowing for 24 hours following an application.

## Compatibility

This product may be mixed with most fertilisers, fungicides, insecticides & inoculants. Ensure all product labels are read carefully. Always check compatibility prior to mixing.
