

TPL ULTIKELP +AA 0-2-8

TPL Ultikelp +AA 0-2-8 is a product that contains a powerful concentration of kelp for the promotion of root and shoot development.

This highly concentrated liquid KELP contains 35% w/v Kelp which provides a combination of auxins, cytokinins, gibberellic acid and alginic acid to stimulate root and shoot growth. Naturally contains phosphorus and potassium to effectively supplement plant nutrition levels.

Application

TPL Ultikelp +AA can be used as a soil or foliar applied supplement in a regular nutrition program for turf and ornamentals. TPL Ultikelp +AA is compatible with a wide range of fertilisers and chemicals.

Multiple applications may be needed throughout the season.

The application rate may need to be varied with changes in turf variety and use.

Compatibility

This product may be mixed with most fertilisers, fungicides, insecticides and inoculants. Ensure all product labels are read carefully. Always check compatibility prior to mixing.

Typical Analysis (w/w)

Phosphorus (P)	2%
Potassium (K)	8%
Free Amino Acids & Polypeptides	2%
200 g/L Tasmanian Bull Kelp Extract	
150g g/L Kelp Ferment	
250 ug/L Indole Acetic Acid	
Trace Vitamins & Minerals	

Pack sizes

20L, 200L, 1000L

Product Characteristics

Colour	Deep Green
S.G.	1.15-1.49
pH	4.6-5.0

Situation	Rate per 100m ²	Rate per Ha	Minimum Dilution	Comments
Turf, Lawns & Sports Fields	120-150mL	12-15L	1:40	Higher rates should be used during periods of high stress. Apply as necessary or as part of a 4-6 week nutrition program.
Landscape and Ornamentals	100mL in 10L water		1:100	Mix 1 Litre in 100L water and drench soil around plant root zone every 4-6 weeks
