TRIMAX PEGASUS/S5

The Trimax PEGASUS sets the benchmark in wide area mowing for parks, reserves, airports, racecourses, sports fields, turf farms, and more.

For over 20 years, the Trimax Pegasus has been leading the way in wide-area mowing. Introduced in 2001 as the world's first multi-deck roller mower, the Pegasus is renowned for its robustness and versatility. Its fast spindle speeds and deep mowing decks deliver the highest quality cut and finish every time, and articulating decks provide a consistent cut over light to moderate contours.

The Pegasus S5 builds on the incredible strength, durability, versatility, and efficiency of the previous series to increase machine life and decrease downtime in full-time commercial applications.

WHAT'S NEW ON PEGASUS/S5

The Pegasus chassis and outrigger arms have been completely redesigned to increase strength without adding unnecessary weight. Larger wheels decrease ground pressure and support a wider range of tyre options. Maintenance-free features have been introduced.

PRODUCT FEATURES.

ROBUST CHASSIS

10% stronger under tough travel conditions, twice the durability in deck lifting and lowering, and a 60% increase in rigidity in the outrigger arms from Pegasus S4.

LOW MAINTENANCE

Zero daily greasing for an 80% reduction in annual grease consumption. Spindles, roller bearings, and auto-belt tensioning are maintenance-free.

TITAN ROLLER BEARING SYSTEM

The Trimax Titan roller bearing system is maintenance-free, requiring no regular greasing, and provides excellent retention.

IMPACT PROTECTION

Outrigger arms and side channel leading edges have been redesigned for increased impact protection.

QUIKLIFT

Enables mower decks to be raised without disengaging the PTO to traverse driveways, footpaths and pavements. Now a standard inclusion for all Pegasus models.

SAFETY COMPLIANT

Complies with international safety standards and can be used with confidence on the roads and in public spaces.

SUSPENSION

The new Pegasus S5 Flexiride Torque Suspension System is designed for increased strength and smoother travel at highway speeds.

HEIGHT ADJUSTMENT

Clearly displayed indicators in both metric and imperial units and a high-tensile 2mm pitch adjuster for precise cut height alterations.

ROAD TOWING COMPLIANT

Fully compliant with ADR regulations allowing road registration.
