

TPS ELITE STADIUM

Premium Perennial Ryegrass
65% Allstar Fore | 35% Greenway

TPS Elite Stadium is a high-performance perennial ryegrass blend developed for premier sporting venues where presentation, durability and recovery are non-negotiable.

Combining the proven disease resistance and winter colour of Allstar Fore with the exceptional shoot density and summer wear tolerance of Greenway, TPS Elite Stadium delivers a dense, resilient, broadcast-ready surface capable of performing under intense traffic and demanding scheduling.

Engineered for both cool-season turf and warm-season oversewing programs, TPS Elite Stadium provides rapid establishment, superior recovery and long-term stability, making it ideal for stadiums and elite sporting facilities where surface quality must be maintained week after week.

Trusted by leading Australian sporting venues.

TPS Elite Stadium includes A-List varieties recognised by the Alliance for Low Input Sustainable Turf for delivery performance with reduced resource demand.

Lower Input Requirements

- Reduced water demand
- Reduced fertiliser inputs
- Reduced chemical and pesticide reliance
- Improved heat tolerance

Integrity & Independent Validation

- Transparent testing protocols
- Regionally grown and tested
- Nationally recognised university co-operators
- Participation in National Turfgrass Evaluation Program (NTEP) trials

Characteristics & Benefits

- ✓ Rapid establishment for tight renovation and oversewing windows
- ✓ Extremely high traffic tolerance under sustained play
- ✓ Exceptional summer wear performance
- ✓ Very high shoot density for a tight, uniform canopy
- ✓ Rapid recovery from match and training loads
- ✓ Strong resistance to Grey Leaf Spot, Crown Rust and Red Thread
- ✓ Outstanding rust resistance
- ✓ Excellent turf quality across varied maintenance regimes
- ✓ Dark green colour with superior winter colour retention
- ✓ Consistent performance across multiple cutting heights
- ✓ Endophyte enhanced for added resilience
- ✓ Suitable for both cool-season turf and warm-season oversewing programs

Areas of Use

- ✓ Premium stadium surfaces
- ✓ Professional sporting venues
- ✓ High use training facilities
- ✓ Golf Course fairways and tees
- ✓ Winter oversewing into couch & kikuyu
- ✓ Renovations requiring fast recovery

At a Glance

Species: *Lolium perenne*
 Endophyte Enhanced: Yes
 Establishment Speed: Rapid
 Shoot Density: Very High
 Wear Tolerance: Extremely High
 Rust Resistance: Very High
 Winter Colour: Excellent
 Persistency: High

Sowing Rate

3-5kg per 100m²

Pack Size

25kg
