

## DENSITY

### RAPIDLY RESTORING PUTTING SURFACES

Golfers dislike aerification and disruptive cultural practices which are fundamental necessities for quality turfgrass conditioning. Use Floratine's density plan to minimize the complaint period and maximize the turf's health. Rapidly restore density for true, consistent putting surfaces.

#### LATERAL GROWTH AND DENSITY

**High Five** accelerates lateral growth and density through patented biostimulant chemistry.

#### ENERGY

**PK Fight** initiates re-rooting, energy, and stress resistance with potassium phosphite and proprietary organic acid technology.

#### CELL DIVISION

**X-Factor 23-0-0** and **X-Factor 24-0-0** drive cell division and growth with low-rate, high efficiency nitrogen and the power of X-Factor technology.

#### COLOUR

**Renaissance** sustains chlorophyll and enzymatic activities with balanced micronutrients and phytochemistry.

## X-FACTOR

**X-Factor 23-0-0** and **X-Factor 24-0-0** contain Floratine's proprietary organic acid translocation technology to enhance uptake, utilization of nutrients, and provide defense mechanisms to protect internal plant functions.
