

1 FOURSOME, 2 PUTTS EACH = 281 FOOTSTEPS

MINIMIZING SPIKE DAMAGE

THE BEST DEFENSE IS A GOOD OFFENSE

Aggressive new spike designs are chewing up putting surfaces especially around the cup.

CELLULAR STRENGTH

TriCal 35-SP (35% Ca) increases cellular strength in cell walls by providing immediately available calcium.

WEAR RESISTANCE

Quad K (0-0-45) helps maintain high cell turgor pressure which aids in wear tolerance by providing immediately available potassium.

TURGIDITY

Turgor improves wear tolerance by increasing cell wall elasticity assisting in wear tolerance with a readily available form of silicon.

OR

Fight's On that has a heavyweight dose of 3.6% silicon for cell strength, stress and wear tolerance with a proprietary stabilised phosphite for a boost of energy.
