

HYDRATION

BALANCED HYDRATION, CONSISTENT TURF

Dual action moisture management with AquaVita technology.

The
Aquatrols
Company

Unique Formulation for Turf Quality & Consistency

Zipline Pro® combines two proven surfactant chemistries with AquaVita® technology and cold-pressed seaweed. The formulation supports balanced hydration, soil resource enhancement and reliable performance across all turf types.

Features and Benefits:

Balanced Hydration & Infiltration

Improves water movement through the profile and helps prevent localised dry spot.

Stress Tolerance

Supports turf quality and consistency across changing environmental conditions.

Nutrient Availability

Aids the release of existing bound nutritional elements with the soil.

Root Development

Helps roots access available water more efficiently and supports firm, fast, fine turf.

Application Rate

Use	Rate per Ha	Timing	Application
Fairways & Greens	10-15 L	Monthly	Apply through conventional spray equipment in a minimum carrier volume of 200L per ha

Zipline Pro at a Glance
